TIPS AND TRICKS

Maybe it's your first toy or you're adding to your team of battery powered friends. Either way, our Little Massager will get your body buzzing.

- The soft tip of Little Massager takes the experience up a notch. Instead of a hard tip—see what we did there—the flexible end allows you to achieve unique targeted sensations.
- Looking to get in the zone? Place Little Massager in your palm and cover your vulva, with every part getting in on the action. Let the vibrations take over.
- With ten vibration modes, you can experiment during your play to find the sensation that feels the best. Change the intensity in the moment to bring you to the brink and back, extending your orgasms.
- Little Massager feels good all over! Try it on other parts of your (or your partner's) body. Nipples, inner thighs, necks, make it your playground. Maybe you'll find an erogenous zone you never knew of.

SATISFACTION GUARANTEED

If you ever have any questions, comments, or concerns about any of Cake's products, reach out to us at hello@hellocake.com. We want to hear from you!

TECHNICAL DATA

Product Name: Little Massager
Max Charge Voltage: DC 5V
Net Weight: 65g
Dimensions: 83 x 54 x 34mm
Material: Silicone and ABS
Vibration: 10 vibration modes
Waterproof: IPX7
Battery Capacity: 220mAh
Charging time: 180 minutes
Battery life: When fully charged, 45 minutes on high speed/60 minutes on low speed

READY, SET, WET | introduction

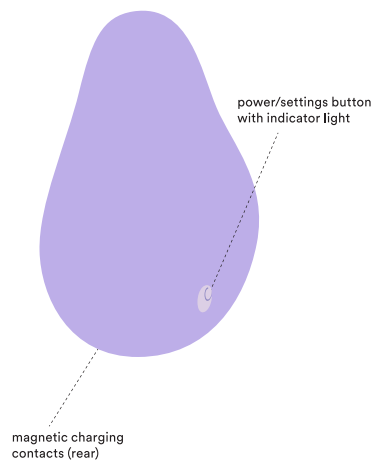

Your brand new Little Massager is designed for more satisfying sessions and to add a new element of fun! It's easy to get started but there are a few signature moves and some tips that we want you to know.

WARNINGS

Please read and save these instructions

- Keep out of reach of children and pets.
- Little Massager is waterproof, but not designed for extended use in the bath, shower, or pool.
- Prolonged use is not recommended. If the toy becomes heated, stop use and allow to cool before use.
- Store in a cool, dry place away from direct sunlight and do not expose to extreme heat.

MEET N GREET | product diagram

GET IT ON | charging

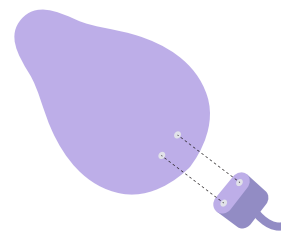

Before you can get down, you've gotta charge it up.

Plug it in for at least two hours before initial use.

Little Massager has waterproof magnetic charging connectors that look like two metal circles located on one side of the massager. Align the end of the provided USB cable with the metal contacts. The cable will magnetically attach.

Plug the USB end into any USB port. The LED will emit a blinking light while charging.

When the indicator light is steady, you're ready to get vibin'.

KEEP IT CLEAN | cleaning

Always clean your toy thoroughly before and after use.

To clean, use a cleaner made specifically for intimate devices such as Cake's Toy Cleaner. Alternatively, you can use warm water with mild soap and pat dry before storing. Never use cleansers containing alcohol, petrol, or acetone.

LUBE IT UP | usage

It's better when it's wetter. We recommend Cake's Toy Wonder—a no drip, super slick, water-based lubricant designed for use with toys. Plus it feels ahmazing.

For extra sensations, try Cake's stimulating pleasure serum for your clitoris, Tingle to Mingle.

GO TO TOWN | operating

Press and hold Little Massager's power button for three seconds to turn the device on and off.

Press the power button again to cycle between the ten different settings, five increasing intensities and five vibration patterns. The first time you play, try them all out to find your favorites.
